Culvert and Retaining Wall Block Marker

Aluminum Mounting Bracket

Part Numbers

RWB6FLOR8 – 6' Marker Whip c/w FLOR8 Flag (8" Flag)
and Aluminum Mount

RW6FLOR8 – 6' Marker Whip c/w FLOR8 Flag (8" Flag)
(no aluminum base)

The new **Retaining Wall Block Marker** is a revolutionary design to produce a high visibility strong marker which incorporates materials to extend the life of the marker.

Using Polycarbonate Materials, Fiberglass Core, Polyolefin Heat Shrink, and Weatherproof Flag Material and 3M Reflective Material, this **Marker** has been designed to withstand extreme weather conditions.

We can custom make your base and make any lengths or flag types including reflective materials. Our bases include Beam Claps, Bolt on Clamps for ease of mounting onto culverts etc.

Just let us know what you require and our team will come up with a solution for you!
