LED Lighted Unit Number Signs for Shovels and Large Equipment

SKU: LUN 34X24

The LUN34 was specifically designed for the optimum size for visibility for Electric, Hydraulic Shovels and other large equipment.

The size of 34" X 24" gives sufficient room for up to 6 digit numeral signs lighted with a visibility of 1000 meters. A Engineered Grade Reflective Opaque Decal is used for added visibility when the lighted sign is turned off.

The mounting is accomplished with a full length plate top and bottom for ease of mounting. The Electrical System is 24 Volts DC and uses a Automatic Circuit Breaker System and a Deustch Plug Receptacle for Power Input.
