

## Mine Safety Signage

**Canada Signal Company  
designs all types of solar  
powered portable mine  
safety signage.**

The motion sensor system and  
LED operation combined with  
our efficient solar cells provide  
operation in Northern  
Latitudes providing sufficient  
solar battery charging for 24 / 7  
mining operations. These signs  
can be made in any sizes with  
any amount of LED's and colors

**Please contact our design  
team to discuss your mine  
safety signage needs.**
